Health Rankings Overview

This report provides descriptions, tables, charts, and other data visualizations using data from the 2025 County Health Rankings, sourced from the [University of Wisconsin County Health Rankings](#). This comprehensive dataset, compiled from national and state sources, features over 80 measures of health organized by the UW Population Health Institute’s [Model of Health](#), covering Population Health and Well-being (Length of Life, Quality of Life) and Community Conditions (Health Infrastructure, Physical Environment, Social and Economic Factors). The updated 2025 framework (right) includes the categories of Societal Rules (Written Rules, Unwritten Rules) and Power, however, no national, county-level data are currently included to represent these domains.

Note: Some data and indicators in this report are sourced directly from national public sources, enabling mapping and reporting and sub-county geographic levels. These data may also reflect a more recent time period than those included in the 2025 County Health Rankings release.

Population Health and Well-being - Length of Life

The overall Length of Life score is based on a single measure of premature death, measured using **Years of Potential Life Lost (YPLL)**. This statistic calculates premature mortality by counting the number of years lost before age 75 rather than total deaths across all ages. YPLL emphasizes deaths at younger ages.

Report Area	Number of Premature Deaths	Premature Death Rate (Years of Potential Life Lost Rate)
Cherry County, NE	73	9,393
Rural Nebraska	3,792	6,197.3
Urban Nebraska	18,916	6,874.4
Nebraska	24,019	7,072.0
United States	4,763,989	8,357.5

Premature Death Rate
(Years of Potential Life Lost Rate)

Note: This indicator is compared to the state average.
Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#), 2020-2022.

[View larger map](#)

Premature Death (YPLL), Years Lost Rate (Per 100,000 Pop.) by County, CDC NVSS 2020-2022

Population Health and Well-being - Quality of Life

Quality of Life includes indicators which measure adult physical, mental, emotional and social functioning. This concept also includes the birth outcome measurement of low birthweight (LBW), which represents a child’s current and future morbidity — or whether a child has a “healthy start” — and also serves as a health outcome related to maternal health risk.

Report Area	Poor or Fair General Health	Poor Physical Health Days	Poor Mental Health Days	Low Birth Weight
Cherry County, NE	18%	3.8	4.7	6.0%
Rural Nebraska	16%	3.8	4.7	6.9%
Urban Nebraska	15%	3.6	4.7	7.8%
Nebraska	15%	3.4	4.3	7.6%
United States	17%	3.9	5.2	8.4%

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Population Health and Well-being Measures - National Z-Scores

This indicator reports the national z-score for each county on measures of Population Health and Well-being. Note that a higher z-score indicates worse health for all measures. A z-score greater than 0 indicates the county performs worse than the national average, while a z-score less than 0 indicates that the county performs better than the national average.

Report Area	Premature Death	Poor or Fair General Health	Poor Physical Health Days	Poor Mental Health Days	Low Birth Weight
Cherry County, NE	-0.29	-0.25	-0.98	-1.5	-1.31

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Community Conditions - Health Infrastructure

Health infrastructure encompasses factors that affect the promotion of health, the reduction of harm, and both access to and the quality of healthcare services. The values for the metrics contributing to the formation of the Community Conditions Health Groups are presented below.

Report Area	Flu Vaccination	Access to Exercise Opportunities	Food Environment Index	Primary Care Physicians (Rate)	Mental Health Providers (Rate)	Preventable Hospital Stays (Rate)	Dentists (Rate)	Mammography Screening	Uninsured
Cherry County, NE	10.0%	67%	7.4	73.0	55.0	1,416.0	183.0	48.0%	8.0%
Rural Nebraska	35.3%	60%	7.6	0.0	0.0	2,240.1	0.0	46.2%	8.5%
Urban Nebraska	56.7%	90%	8.1	0.0	0.0	2,113.7	0.0	50.2%	7.5%
Nebraska	50.0%	85%	7.6	74.0	340.0	2,231.0	82.0	52.0%	8.0%
United States	47.7%	84%	7.5	74.8	332.6	2,706.6	73.4	44.8%	9.6%

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Health Infrastructure Measures - National Z-Scores

This indicator reports the national z-score for each county on measures of Health Infrastructure. Note that a higher z-score indicates worse health for all measures. A z-score greater than 0 indicates the county performs worse than the national average, while a z-score less than 0 indicates that the county performs better than the national average.

Report Area	Flu Vaccination	Access to Exercise Opportunities	Food Environment Index	Primary Care Physicians	Mental Health Providers	Preventable Hospital Stays	Dentists	Mammography Screening	Uninsured
Cherry County, NE	3	-0.19	0.07	-0.53	0.67	-1.31	-3	-0.62	-0.58

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Community Conditions - Physical Environment

The Physical Environment framework includes measures of housing and transportation, air and water quality, as well as measures of civic and community resources. Housing and transportation measures are included because housing options and transit systems shape our communities’ built environment and affect where we live and how we get from place to place. The choices we make about housing and transportation, and the opportunities underlying these choices also affect our health. Air and water quality measures are included because clean air and safe water are prerequisites for health. Poor air or water quality can be particularly detrimental to vulnerable populations such as the very young, the elderly, and those with chronic health conditions. Civic and community resources are included because the physical and social infrastructure help us stay

connected and make community participation possible.

Report Area	Severe Housing Problems	Driving Alone to Work	Long Commute - Driving Alone	Air Pollution	Drinking Water Violations	Broadband Access	Library Access
Cherry County, NE	8.0%	68.0%	14.0%	5	No	84.0%	6
Rural Nebraska	10.2%	77.8%	21.9%	6.3	Yes	84.4%	4.7
Urban Nebraska	12.8%	77.0%	18.8%	6.9	Yes	90.8%	3.1
Nebraska	12.0%	77.0%	19.0%	6.0	No	90.0%	3.0
United States	16.9%	70.3%	36.8%	8.2	No	89.8%	2.1

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Physical Environment Measures- National Z-Scores

This indicator reports the national z-score for each county on measures of Physical Environment.

Note that a higher z-score indicates worse health for all measures. A z-score greater than 0 indicates the county performs worse than the national average, while a z-score less than 0 indicates that the county performs better than the national average.

Report Area	Severe Housing Problems	Driving Alone to Work	Long Commute - Driving Alone	Air Pollution - Particulate Matter	Drinking Water Violations	Broadband Access	Library Access
Cherry County, NE	-1.18	-1.25	-1.55	-1.39	-0.77	0.11	-1.71

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Community Conditions - Social and Economic Factors

The Social and Economic Factors area of the County Health Rankings includes measures of Education, Income, Employment and Wealth, and Safety and Social Support. Education measures show who in a community has graduated high school or attended some college; Income, Employment and Wealth measures detail unemployment statistics and looks at children in poverty and income inequality; Safety and Social Support measures injury deaths, access to social opportunities, and child care cost burden. The Social and Economic Factors are significant to community health because they affect people's ability to make healthy choices, afford medical care and housing, and manage stress. Strategies to improve these factors can have a greater impact on health over time than those traditionally associated with health improvement, such as strategies to improve health behaviors.

Report Area	Some College	High School Completion	Unemployment	Income Inequality	Children in Poverty	Injury Deaths (Rate)	Social Associations (Rate)	Child Care Cost Burden
Cherry County, NE	70.0%	97%	1.9%	3.6	16.0%	92.0	12.8	35.0%
Rural Nebraska	67.4%	92%	2.1%	4.1	13.6%	84.9	21.9	31.2%
Urban Nebraska	73.3%	92%	2.3%	4.2	10.5%	61.0	15.3	27.6%
Nebraska	72.0%	92%	2.3%	4.2	11.0%	65.0	18.1	30.0%
United States	67.8%	90%	3.6%	4.8	16.0%	83.5	11.7	25.5%

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Social and Economic Factors - National Z-Scores

This indicator reports the national z-score for each county on measures of Social and Economic Factors.

Note that a higher z-score indicates worse health for all measures. A z-score greater than 0 indicates the county performs worse than the national average, while a z-score less than 0 indicates that the county performs better than the national average.

Report Area	Some College	High School Graduation	Unemployment	Income Inequality	Children in Poverty	Injury Deaths	Social Associations	Child Care Cost Burden
Cherry County, NE	-0.97	-1.62	-1.43	-1.20	-0.35	-0.25	-0.24	0.94

Data Source: University of Wisconsin Population Health Institute, [County Health Rankings](#). 2025.

Population Health and Well-being - Length of Life

Length of life measures the time between birth and death and how often people die early. Everyone should have the resources and opportunities to live long and well, regardless of where they live.

For more information, please visit the County Health Rankings [Length of Life](#) web page.

Life Span - Premature Death

This indicator reports the Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death. Figures are reported as rates age-adjusted to year 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. Data were from the National Center for Health Statistics - Mortality Files (2020-2022) and are used for the 2025 County Health Rankings. This indicator is relevant because a measure of

premature death can provide a unique and comprehensive look at overall health status.

Within the report area, there are a total of 73 premature deaths from 2020 to 2022. This represents an age-adjusted rate of 9,393 years of potential life lost before age 75 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the three-year time frame.

Report Area	Premature Deaths, 2020-2022	Years of Potential Life Lost, Total	Years of Potential Life Lost, Rate per 100,000 Population
Cherry County, NE	73	1,407	9,393
Rural Nebraska	3,792	56,667	6,460
Urban Nebraska	18,916	314,279	6,884

Data Source: Centers for Disease Control and Prevention, CDC - National Vital Statistics System. Accessed via County Health Rankings. 2020–2022.

Population Health and Well-being - Quality of Life

Quality of life underscores the importance of physical, mental, social and emotional health throughout the life course. Quality of life reflects internal conditions, such as perceived health, life satisfaction and self-esteem. Quality of life also includes external aspects that enable people to live well, such as environmental and housing quality and community safety. Quality of

life data tell us how people assess their overall well-being. Self-assessed health correlates with actual health outcomes. Health-related quality of life focuses on how a person’s health impacts their ability to live a full life.

For more information, please visit the County Health Rankings [Quality of Life](#) web page.

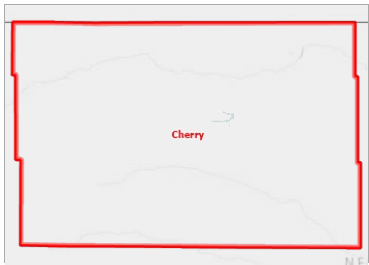

Life Satisfaction - Poor or Fair Health

This indicator reports the percentage of adults age 18 and older who self-reported their general health status as “fair” or “poor.” In this report area, the estimated prevalence of fair or poor health among adults aged 18 years and older was 18.1%.

Report Area	Total Population	Adults Age 18+ with Poor or Fair General Health (Crude)	Adults Age 18+ with Poor or Fair General Health (Age-Adjusted)
Cherry County, NE	5,492	18.1%	16.5%
Rural Nebraska	331,290	17.9%	16.5%
Urban Nebraska	1,647,089	15.8%	15.4%
Nebraska	1,978,379	16.1%	15.6%
United States	334,914,895	19.2%	18.3%

Physical Health - Low Birth Weight

This indicator reports the percentage of live births where the infant weighed less than 2,500 grams (approximately 5 lbs., 8 oz.). These data are reported for a 7-year aggregated time period. Data were from the National Center for Health Statistics - Natality Files (2017-2023) and are used for the 2025 County Health Rankings.

Within the report area, there were 31 infants born with low birth weight. This represents 5.6% of the total live births. *Note: Data are suppressed for counties with fewer than 10 low birthweight births in the reporting period.*

Report Area	Total Live Births	Low Birthweight Births	Low Birthweight Births, Percentage

Community Conditions - Health Infrastructure

Health infrastructure includes all systems, organizations, interventions and resources intended for health promotion and

illness prevention. Health care systems promote health and well-being for community members through care services such as primary care, hospital care and long-term or home care. Public health systems monitor, detect and intervene when disease or risks impact community health to limit harm and promote healthy lifestyles, environments and policies. Health infrastructure supports all health services — from vaccinations and chronic disease prevention programs to emergency preparedness efforts.

For more information, please visit the County Health Rankings [Health Infrastructure](#) web page.

Health Promotion and Harm Reduction - Flu Vaccinations

This indicator reports the percentage of fee-for-service (FFS) Medicare enrollees who had an annual flu vaccination and is used for the 2025 County Health Rankings. This indicator is relevant because it is a measure of clinical care.

Within the report area there are 129 fee-for-service (FFS) Medicare enrollees who had an annual flu vaccination. This represents 10.0% of the total FFS Medicare enrollees, which is less than the state rate of 50.0%.

Report Area	FFS Medicare Enrollees (2022)	Number with Annual Flu Vaccination	Percentage with Flu Vaccination
Cherry County, NE	1,288	129	10.0%
Rural Nebraska	63,892	21,820	34.2%
Urban Nebraska	173,256	96,213	55.5%

- Nebraska (50.0%)
- United States (48.0%)

Note: This indicator is compared to the state average.
Data Source: Centers for Medicare and Medicaid Services, [Mapping Medicare Disparities Tool](#). 2022.

Health Promotion and Harm Reduction - Access to Exercise Opportunities

This indicator reports the percentage of individuals in a county who live reasonably close to a location for physical activity. Locations for physical activity are defined as parks or recreational facilities. The numerator is the 2020 total population living in census blocks with adequate access to at least one location for physical activity (adequate access is defined as census blocks where the border is a half-mile or less from a park, 1 mile or less from a recreational facility in an urban area, or 3 miles or less from a recreational facility in a rural area) and the denominator is the 2020 resident county population. This indicator is used in the 2025 County Health Rankings.

Within the report area there are 3,654 people with adequate access to locations for physical activity. This represents 67.00% of the total population, which is less than the state rate of 85.00%.

Report Area	Total Population (2020)	Population with Access to Exercise Opportunities	Percentage of Population with Access to Exercise Opportunities
Cherry County, NE	5,455	3,654	67.00%
Rural Nebraska	333,185	198,730	59.65%
Urban Nebraska	1,628,319	1,460,206	89.68%
Nebraska	1,961,504	1,667,278	85.00%
United States	331,449,281	279,894,833	84.45%

Note: This indicator is compared to the state average.

Access to Exercise Opportunities, Z-Score by County, County Health Rankings 2025

Health Promotion and Harm Reduction - Food Environment Index

This indicator reports the overall food environment in terms of proximity to healthy foods and income. It measures the access to healthy foods by considering the distance an individual lives from a grocery store or supermarket, locations for health food purchases in most communities, and the inability to access healthy food because of cost barriers. Data were from the annual USDA Food Security Survey (2019&2022) as modeled by Feeding America (Map the Meal Gap) for state-level data and County Health Rankings for county-level data, and are used for the 2025 County Health Rankings.

As reported by the 2025 County Health Rankings, the Food Environment Index for the report area was 7.40 (with national standardized z-score as 0.07). This is less than the state's average index of 7.60.

Note:

1. The Food Environment Index ranges from a scale of 0 (worst) to 10 (best).
2. A higher z-score indicates worse health.

Report Area	Food Environment Index Score	Z-Score Nationwide
Cherry County, NE	7.40	0.07
Nebraska	7.60	No data

Note: This indicator is compared to the state average.

Food Environment Index, Z-Score by County, County Health Rankings 2025

Clinical Care - Primary Care Physicians

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over, resident physicians, and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

Within the report area there are 3 primary care physicians. This represents 54.60 providers per 100,000 total population.

Report Area	Total Population (2022)	Primary Care Physicians (2022)	Primary Care Physicians, Rate per 100,000 Population
Cherry County, NE	5,495	3	54.60
Rural Nebraska	332,602	198	59.50
Urban Nebraska	1,639,644	1,293	78.90
Nebraska	1,972,246	1,491	75.60
United States	334,017,321	253,985	76.00

Access to Primary Care Providers, Rate Per 100,000 Pop. by County, AHRF_CHR 2021

Clinical Care - Mental Health Providers

This indicator reports the number of mental health providers in the report area as a rate per 100,000 total area population. Mental health providers are defined as psychiatrists, psychologists, licensed clinical social workers, counselors, marriage and family therapists, and mental health providers that treat alcohol and other drug use, as well as advanced practice nurses specializing in mental health care. Data from the 2023 Centers for Medicare and Medicaid Services (CMS) National Provider Identifier (NPI) downloadable file are used in the 2025 County Health Rankings.

Within the report area there are 3 mental health providers with a CMS National Provider Identifier (NPI). This represents 55 providers per 100,000 total population.

Note: Data are suppressed for counties with population greater than 1,000 and 0 mental health providers.

Report Area	Estimated Population	Number of Mental Health Providers	Ratio of Mental Health Providers to Population (1 Provider per x Persons)	Mental Health Care Provider Rate (Per 100,000 Population)
Cherry County, NE	5,455	3	1,818.2	55
Rural Nebraska	297,456	382	778.7	128.4
Urban Nebraska	1,643,881	6,342	259.2	385.8
Nebraska	1,978,235	6,726	294.1	340
United States	334,791,133	1,113,571	300.6	332.6

Note: This indicator is compared to the state average.

Access to Mental Health Care Providers, Z-Score by County, County Health Rankings 2025

Clinical Care - Dentists

This indicator reports the number of dentists per 100,000 population. This indicator includes all dentists - qualified as having a doctorate in dental surgery (D.D.S.) or dental medicine (D.M.D.), who are licensed by the state to practice dentistry and who are practicing within the scope of that license.

Within the report area there are 10 dentists. This represents 180.93 dentists per 100,000 total population.

Report Area	Total Population (2022)	Dentists (2022)	Dentists, Rate per 100,000 Population
Cherry County, NE	5,527	10	180.93
Rural Nebraska	332,238	185	55.70
Urban Nebraska	1,655,626	1,483	89.60
Nebraska	1,987,864	1,668	83.90

Clinical Care - Uninsured

The lack of health insurance is considered a *key driver* of health status.

This indicator reports the percentage of adults under age 65 without health insurance coverage. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

Report Area	Total Population Age 0-64	Pop. Age 0-64 w/o Insurance	Pop. Age 0-64 w/o Insurance, Percent
Cherry County, NE	4,192	301	7.18%
Rural Nebraska	249,088	19,671	7.90%

Community Conditions - Physical Environment

The **physical environment** is where people live, learn, work and play. People interact with their physical environment through

the air they breathe, the water they drink, the land they live on and the climate around them.

For more information, please visit the County Health Rankings [Physical Environment](#) web page.

Housing and Transportation - Severe Housing Problems

This indicator reports the percentage of households with severe housing problems, i.e., households with one or more of the following housing problems:

- housing unit lacks complete kitchen facilities;
- housing unit lacks complete plumbing facilities;
- household is overcrowded; or
- household is severely cost burdened.

Data were originally from HUD Comprehensive Housing Affordability Strategy (CHAS) data and were used in the 2025 County Health Rankings (CHR).

Within the report area, there are 121 or 6.5% households with severe housing problems on average between 2017 and 2021.

Report Area	Total Households	Households with One or More Housing Problems, Total	Households with One or More Housing Problems, Percent
Cherry County, NE	1,875	121	6.5%
Rural Nebraska	129,723	11,477	8.8%
Urban Nebraska	634,788	74,327	11.7%
Nebraska	764,762	85,804	11.2%
United States	123,713,841	18,201,241	14.7%

Note: This indicator is compared to the state average.

Note: This indicator is compared to the state average.

Data Source: US Census Bureau, American Community Survey, 2019-23.

Air, Water and Land - Air Pollution: Particulate Matter

This indicator reports the percentage of days with particulate matter 2.5 levels above the National Ambient Air Quality Standard (35 micrograms per cubic meter) per year, calculated using data collected by monitoring stations and modeled to include counties where no monitoring stations occur. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

Report Area	Total Population	Average Daily Ambient Particulate Matter 2.5	Number of Days Exceeding NAAQS Standards	Percentage of Days Exceeding Standards, Crude Average	Percentage of Days Exceeding Standards, Pop. Adjusted Average
Cherry County, NE	5,455	4.90	0.00	0.00%	0.00%

Community Conditions - Social and Economic Factors

Social and economic factors influence the choices and opportunities available in a community. Economic factors include which jobs and benefits are available and to whom, and whether education, health insurance and child care are accessible and affordable. Social factors enable connection and inclusion within and between communities and include social safety net and other support.

For more information, please visit the County Health Rankings [Social and Economic Factors](#) web page.

Education - Some College

This indicator reports the percentage of population age 25-44 with at least some post-secondary education. It includes individuals who pursued education following high school but did not receive a degree as well as those who attained degrees. Data are based on the U.S. Census Bureau American Community Survey 2019-23 5-year estimates.

Of all the 1,282 population age 25-44 in the report area, there are 901 or 70.28% people who have at least some college education.

Report Area	Population Age 25-44	Population Age 25-44 with at least Some College Education, Total	Population Age 25-44 with at Least Some College Education, Percent
Cherry County, NE	1,282	901	70.28%
Rural Nebraska	71,767	48,386	67.42%

Income, Employment and Wealth - Unemployment

Total unemployment in the report area for the current month equals 69, or 2.2% of the civilian non-institutionalized population age 16 and older (non-seasonally adjusted). This indicator is relevant because unemployment creates financial instability and barriers to access including insurance coverage, health services, healthy food, and other necessities that contribute to poor health status.

Report Area	Labor Force	Number Employed	Number Unemployed	Unemployment Rate
Cherry County, NE	3,197	3,128	69	2.2%

Income, Employment and Wealth - Income Inequality (80/20 Ratio)

This indicator reports the ratio of household income at the 80th percentile to that at the 20th percentile, i.e., when the incomes of all households in a county are listed from highest to lowest, the 80th percentile is the level of income at which only 20% of households have higher incomes, and the 20th percentile is the level of income at which only 20% of households have lower incomes. A higher inequality ratio indicates greater division between the top and bottom ends of the income spectrum.

Report Area	Total Households	Ratio of Household Income at the 80th Percentile to Income at the 20th Percentile
Cherry County, NE	2,229	3.6
Nebraska	786,885	4.2
United States	127,482,865	4.9

Data Source: US Census Bureau, *American Community Survey*, 2019-23.

Income, Employment and Wealth - Children in Poverty

Poverty rate change for children ages 0 - 17 in the report area from 2013 to 2023 is shown below. According to the U.S. Census, the poverty rate for the area was 16.20% in 2023 and was 21.7% in 2013.

Report Area	Poverty Age 0-17 2013	Poverty Age 0-17 2014	Poverty Age 0-17 2015	Poverty Age 0-17 2016	Poverty Age 0-17 2017	Poverty Age 0-17 2018	Poverty Age 0-17 2019	Poverty Age 0-17 2020	Poverty Age 0-17 2021	Poverty Age 0-17 2022	Poverty Age 0-17 2023

Population Below the Poverty Level, Children (Age 0-18), Percent by County, SAIPE 2023

Safety and Social Support - Injury Deaths

The injury mortality rate is the number of deaths due to intentional or unintentional injury per 100,000 population. Data were originally from the 2018-2022 National Center for Health Statistics (NCHS) data and were used in the 2025 County Health Rankings.

Within the report area there are 26 injury deaths over the five years from 2018 to 2022. This represents a rate of 92.4 deaths per 100,000 total population.

Note: Data are suppressed for counties with fewer than 10 injury deaths in the time period.

Report Area	Total Population (5-year Avg.)	Injury Deaths, Total (5-year Total)	Injury Deaths, Rate per 100,000 Population
Cherry County, NE	5,630	26	92.4
Rural Nebraska	313,266	1,331	85.0

Additional Measures - Population Health and Well-being - Quality of Life

Quality of life underscores the importance of physical, mental, social and emotional health throughout the life course. Quality of life reflects internal conditions, such as perceived health, life satisfaction and self-esteem. Quality of life also includes external aspects that enable people to live well, such as environmental and housing quality and community safety. Quality of life data tell us how people assess their overall well-being. Self-assessed health correlates with actual health outcomes. Health-related quality of life focuses on how a person's health impacts their ability to live a full life.

For more information, please visit the County Health Rankings [Quality of Life](#) web page.

Physical Health - Frequent Physical Distress

This indicator reports the percentage of adults age 18 and older who reported 14 or more days during the past 30 days during which their physical health was not good.

Within the report area, 13.6% of adults 18 and older reported having poor physical health in the past month.

Report Area	Total Population	Adults Age 18+ with Poor Physical Health (Crude)	Adults Age 18+ with Poor Physical Health (Age-Adjusted)
Cherry County, NE	5,492	13.6%	12.2%
Rural Nebraska	331,290	13.1%	11.9%
Urban Nebraska	1,647,089	11.3%	10.9%
Nebraska	1,978,379	11.6%	11.0%
United States	334,914,895	12.8%	12.1%

Additional Measures - Community Conditions - Health Infrastructure

Health Promotion and Harm Reduction - Limited Access to Healthy Foods

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than 1 mile (urban) or 10 miles (rural) from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.

35.49% of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 620.

Report Area	Total Population	Low Income Population	Low Income Population with Low Food Access	Percent Low Income Population with Low Food Access
Cherry County, NE	5,713	1,747	620	35.49%
Rural Nebraska	346,727	109,934	30,806	28.02%
Urban Nebraska	1,479,614	426,257	72,366	16.98%
Nebraska	1,826,341	536,191	103,172	19.24%
United States	308,745,538	97,055,825	18,834,033	19.41%

Food Insecure Population, Percent by County, Feeding America 2023

Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

Report Area	Population Under Age 18	Food Insecure Children, Total	Child Food Insecurity Rate
Cherry County, NE	1,304	300	23.01%
Rural Nebraska	77,349	15,100	19.52%
Urban Nebraska	396,609	74,910	18.89%
Nebraska	954,246	181,250	18.99%
United States	72,810,721	13,128,990	18.03%

Data Source: [Feeding America](#). 2023.

Food Insecurity - Food Insecure Population Ineligible for SNAP Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for SNAP assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for SNAP.

Report Area	Food Insecure Population	Food Insecure Population Ineligible for Assistance, Percent	Food Insecure Children	Food Insecure Children Ineligible for Assistance, Percent
Cherry County, NE	740	18%	300	0%
Rural Nebraska	45,930	43.41%	15,100	33.6%
Urban Nebraska	212,660	48.2%	74,910	38.64%

Health Promotion and Harm Reduction - Alcohol-Impaired Driving Deaths

Motor vehicle crash deaths are preventable and are a leading cause of death among young persons. This indicator reports the crude rate of persons killed in motor vehicle crashes involving alcohol as a rate per 100,000 population. Fatality counts are based on the location of the crash and not the decedent's residence.

Within the report area, there are a total of 3 deaths due to motor vehicle crash involving alcohol. The crude rate per 100,000 total population is 11.0.

Note: Fatality counts are based on the location of the crash and not the decedent's residence.

Report Area	Total Population (2020)	Alcohol-Involved Crash Deaths (2018-2022)	Alcohol-Involved Crash Deaths, Annual Rate per 100,000 Population

Health Promotion and Harm Reduction - Drug Overdose Deaths

This indicator reports the 2020-2022 three-year average rate of death due to drug overdose per 100,000 population and is used in the 2025 County Health Rankings. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because drug overdose is the leading cause of injury deaths in the United States, and they have increased dramatically in recent years.

Note:

1. Deaths are counted in the county of residence of the deceased.
2. A missing value is reported for counties with fewer than 10 drug poisoning deaths in the time period.

Report Area	Three Year Total Population (2020-2022)	Three Year Total Deaths (2020-2022)	Drug Overdose Death Rate (Per 100,000 Population)

Clinical Care - Other Primary Care Providers

This indicator reports the rate of non-physician primary care providers per 100,000 population, along with the population-to-provider ratio, using 2024 data. The ratio is featured in the 2025 County Health Rankings. Rates and ratios are aggregated for report areas from county-level data where available. This measure is crucial because non-physician providers, such as nurse practitioners, physician assistants, and clinical nurse specialists, are essential in ensuring access to routine and preventive care, particularly as physician shortages persist, helping to maintain care quality and close gaps in the healthcare system.

Within the report area there are 6 non-physician primary care providers. This represents a population-to-provider ratio of 915.3 and a rate of 109.2 providers per 100,000 total population.

Report Area	Total Population (2024)	Other Primary Care Providers (2024)	Ratio of Providers to Population (1 Provider per x Persons)	Other Primary Care Providers, Rate per 100,000 Population
Cherry County, NE	5,492	6	915.3	109.2
Rural Nebraska	331,290	393	843.0	118.6

[View larger map](#)

Other Primary Care Providers, Rate Per 100,000 Pop. by County, CMS NPI 2024

Additional Measures - Community Conditions - Physical Environment

Housing and Transportation - Traffic Volume

This indicator reports the count of vehicles per day (average annual daily traffic) at major roads within 10 kilometers (km), divided by distance in km. Although proximity to roads can provide access to amenities, in EJScreen, the indicator is designed to screen for the negative aspects of very close proximity to very high volumes of traffic, which include asthma and cardiovascular and heart disease, among others. Areas with higher traffic proximity scores are placed higher in percentile (national ranking). The percentile could be interpreted as, for example, for a place at the 80th percentile nationwide, 20% (i.e., 100 minus the percentile) of the U.S. population lives in a block group that has a higher value.

The EJ Index for Traffic Proximity and Volume is a combination of this environmental indicator and the Demographic Index (the average of percent low-income and percent people of color).

Data are acquired from EPA's EJScreen dataset, 2024.

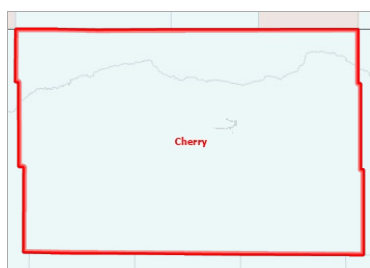

Report Area	Total Population	Traffic Proximity	Percentile for Traffic Proximity	EJ Index for Traffic Proximity
Cherry County, NE	5,473	26,324.9	7	8.0
Rural Nebraska	333,069	47,569.1	9	8.9

Housing and Transportation - Homeownership

Tenure provides a measurement of home ownership, which has served as an indicator of the nation's economy for decades. This data covers all occupied housing units, which are classified as either owner occupied or renter occupied. These data are used to aid in the distribution of funds for programs such as those involving mortgage insurance, rental housing, and national defense housing. Data on tenure allows planners to evaluate the overall viability of housing markets and to assess the stability of neighborhoods. The data also serve in understanding the characteristics of owner occupied and renter occupied units to aid builders, mortgage lenders, planning officials, government agencies, etc., in the planning of housing programs and services.

Owner-Occupied Housing

A housing unit is owner-occupied if the owner or co-owner lives in the unit, even if it is mortgaged or not fully paid for. The unit also is considered owned with a mortgage if it is built on leased land and there is a mortgage on the unit. Mobile homes occupied by owners with installment loan balances also are included in this category.

Report Area	Total Occupied Housing Units	Owner-Occupied Housing Units	Percent Owner-Occupied Housing Units
Cherry County, NE	2,229	1,382	62.00%

Housing and Transportation - Severe Housing Cost Burden

This indicator reports the percentage of the households where housing costs are 50% or more total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels.

Report Area	Total Households	Severely Burdened Households	Severely Burdened Households, Percent
Cherry County, NE	2,229	121	5.43%
Rural Nebraska	136,746	11,161	8.16%

Severely Cost Burdened Households (Housing Costs Exceed 50% of Household Income), Percent by Tract, ACS 2019-23

Severely Cost-Burdened Households by Tenure, Total

This data shows the number of households that spend more than 50% of the household income on housing costs. In the report area, there were 121 severely cost burdened households according to the U.S. Census Bureau American Community Survey (ACS) 2019-2023 5-year estimates. The data for this indicator is only reported for households where household housing costs and income earned was identified in the American Community Survey.

Report Area	Severely Burdened Households	Severely Burdened Rental Households	Severely Burdened Owner-Occupied Households w/ Mortgage	Severely Burdened Owner-Occupied Households w/o Mortgage
Cherry County, NE	121	53	38	30

Air, Water and Land - Access to Parks

This indicator reports the percentage of the total 2020 population living within 1/2 mile of a park and is included in the 2025 County Health Rankings framework.

Within the report area, there were 538 people living within a half mile of a park. This represents 9.9% of the 2020 total population.

Note: Data are suppressed for counties with no park locations have been identified in the USA Parks dataset. In contrast, counties are assigned a 0% when they have a park location identified but the county residents do not live in a census block within a half mile of that location.

Report Area	Total Population, 2020 Census	Population Within 1/2 Mile of a Park	Percent Within 1/2 Mile of a Park
Cherry County, NE	5,455	538	9.9%
Rural Nebraska	No data	No data	No data
Urban Nebraska	No data	No data	No data
Nebraska	1,961,504	1,035,165	52.8%
United States	331,449,281	168,749,265	50.9%

Note: This indicator is compared to the state average.

Access to Parks, Percent by County, ARCGIS 2024 & 2020

Climate - Adverse Climate Events

This indicator shows how many of three adverse climate and weather-related event thresholds a county met over a five-year period:

- **Extreme heat:** 300 or more days above 90°F
- **Moderate or greater drought:** 65 or more weeks
- **Presidential disaster declarations:** 2 or more events

Each category with a qualifying event adds one point to the county's total score, for a maximum of 3. For example, if a county met the thresholds in two categories, it would receive a score of 2. The actual number of events in each category is available in the disaggregated data. This is a new measure in the 2025 CHR framework.

From 2019–2023, the report area met a total of 1 adverse climate event thresholds. Specifically, there were 230 days above 90°F, 149 weeks of moderate or greater drought, and 1 presidential disaster declarations.

Report Area	County Value	Days above 90°F	Weeks in Moderate or Greater Drought	Disaster Declarations
Cherry County, NE	1	230	149	1
Rural Nebraska	No data	No data	No data	No data
Urban Nebraska	No data	No data	No data	No data
Nebraska	No data	No data	No data	No data

Adverse Climate Events, Total Occurance by County, CDC EPH 2019-2023

Civic and Community Resources - Census Participation

This indicator reports the percentage of all households that self-responded to the 2020 census (by internet, paper questionnaire or telephone). Data were originally from the Census Operational Quality Metrics and are used in the 2025 County Health Rankings.

Of all the 1,875 households in the report area, 965 or 51.5% have self-responded to the 2020 Census.

Note: 1. The total number of self-responding households at all geographic levels is back-calculated by CARES using the total number of occupied housing units from the 2019–2023 ACS as the denominator. As a result, these estimates may not be fully aligned with those reported by the original data source.

2. Connecticut planning regions could only report rates since the denominator data are for the old counties. This will affect multi-county, state and US summary where one or more Connecticut planning regions are included.

Report Area	Total Households	Responded to the 2020 Census, Total	Responded to the 2020 Census, Percent
Cherry County, NE	1,875	965	51.5%
Rural Nebraska	129,723	79,732	61.5%
Urban Nebraska	634,788	462,304	72.8%
Nebraska	764,511	542,036	70.9%
United States	123,712,766	80,788,179	65.3%

Note: This indicator is compared to the state average.
Data Source: Census Bureau, [Census Operational Quality Metrics](#). 2020.

Civic and Community Resources - Voter Turnout

This indicator reports the percentage of citizen population aged 18 or older who voted in the 2020 U.S. Presidential election. Data were originally from the MIT Election Data and Science Lab (2020) and ACS16-20.

Of all the 4,440 U.S. citizens ages 18 and older in the report area, 3,264 or 73.5% voted in the 2020 U.S. Presidential election.

Report Area	US Citizens Age 18+	Voted in 2020 Presidential Election, Total	Voted in 2020 Presidential Election, Percent
Cherry County, NE	4,440	3,264	73.5%
Rural Nebraska	250,150	174,774	69.9%
Urban Nebraska	1,123,425	776,938	69.2%
Nebraska	1,373,575	951,712	69.3%
United States	232,908,330	157,981,636	67.8%

Note: This indicator is compared to the state average.

Population, Total and by Race/Ethnicity

A total of 5,468 people live in the 5,960.10 square mile report area defined for this assessment according to the U.S. Census Bureau American Community Survey 2019-23 5-year estimates. The population density for this area, estimated at 1 persons per square mile, is less than the national average population density of 94 persons per square mile.

Report Area	Total Population	Total Land Area (Square Miles)	Population Density (Per Square Mile)
Cherry County, NE	5,468	5,960.10	1
Rural Nebraska	332,420	55,565.31	6
Urban Nebraska	1,633,506	21,249.57	77
Nebraska	1,965,926	76,814.88	26
United States	332,387,540	3,533,298.58	94

Data Source: US Census Bureau, *American Community Survey*. 2019-23.

United States	193,338,267	39,981,609	19,106,873	1,751,338	565,623	1,646,202	12,866,039

Data Source: US Census Bureau, [American Community Survey](#). 2019-23.

Non-Hispanic Population by Race Alone, Percent

This indicator reports the percentage of the non-Hispanic population in the report area by race alone. The percentage values could be interpreted as, for example, "Of all the non-Hispanic population in the report area, the percentage of population who are white is (value)."

Report Area	White	Black	Asian	American Indian or Alaska Native	Native Hawaiian or Pacific Islander	Some Other Race	Multiple Races
Cherry County, NE	87.78%	1.00%	1.19%	2.70%	0.00%	0.55%	6.79%
Rural Nebraska	93.35%	0.93%	0.52%	2.13%	0.02%	0.16%	2.88%
Urban Nebraska	85.55%	6.20%	3.32%	0.35%	0.05%	0.37%	4.15%
Nebraska	86.93%	5.26%	2.83%	0.67%	0.05%	0.33%	3.93%
United States	71.80%	14.85%	7.10%	0.65%	0.21%	0.61%	4.78%

Data Source: US Census Bureau, [American Community Survey](#), 2019-23.

Total Population by Combined Race and Hispanic Ethnicity

This indicator reports the percentage of the total population in the report area by combined race and Hispanic ethnicity. The percentage values could be interpreted as, for example, "Of all the population in the report area, the percentage of population who are non-Hispanic white is (value)."

Note: Some of the combined race/ethnicity groups use acronyms for their names in the following table and chart. The full forms are as followed:

- *Non-Hispanic NAAN = Non-Hispanic Native American or Alaska Native*
- *Non-Hispanic NPI = Non-Hispanic Native Hawaiian or Pacific Islander*
- *Non-Hispanic Other = Non-Hispanic Some Other Race*

Report Area	Non-Hispanic White	Non-Hispanic Black	Non-Hispanic Asian	Non-Hispanic NAAN	Non-Hispanic NPI	Non-Hispanic Other	Non-Hispanic Multiple Races	Hispanic or Latino
Cherry County, NE	85.15%	0.97%	1.15%	2.62%	0.00%	0.53%	6.58%	3.00%
Rural Nebraska	85.59%	0.85%	0.48%	1.96%	0.02%	0.15%	2.64%	8.31%
Urban Nebraska	74.32%	5.38%	2.89%	0.31%	0.05%	0.32%	3.61%	13.14%
Nebraska	76.22%	4.62%	2.48%	0.59%	0.04%	0.29%	3.44%	12.32%
United States	58.17%	12.03%	5.75%	0.53%	0.17%	0.50%	3.87%	18.99%

Data Source: US Census Bureau, [American Community Survey](#), 2019-23.

Total Population by Combined Race and Hispanic Ethnicity - Column Chart

The chart below represents combined race and Hispanic ethnicity data in a column chart. This chart enables comparison between the report area and state and/or national averages.

% Disability: Functional Limitations

This indicator reports the percentage of adults age 18 and older who reported having at least one of six types of disabilities based on the following questions:

- "Are you deaf or do you have serious difficulty hearing?"
- "Are you blind or do you have serious difficulty seeing, even when wearing glasses?"
- "Because of a physical, mental, or emotional condition, do you have serious difficulty concentrating, remembering, or making decisions?"
- "Do you have serious difficulty walking or climbing stairs?"
- "Do you have difficulty dressing or bathing?"
- "Because of a physical, mental, or emotional condition, do you have difficulty doing errands alone such as visiting a doctor's office or shopping?"

Based on this definition, 31.7% of adults age 18+ within the report area were estimated to have a disability.

Report Area	Total Population	Adults Age 18+ with Any Disability (Crude)	Adults Age 18+ with Any Disability (Age-Adjusted)
Cherry County, NE	5,492	31.7%	28.8%
Rural Nebraska	331,290	30.7%	27.9%
Urban Nebraska	1,647,089	26.7%	25.9%
Nebraska	1,978,379	27.4%	26.2%
United States	334,914,895	30.0%	28.3%

Note: This indicator is compared to the state average.

% Not Proficient in English

This indicator reports the percentage of the population aged 5 and older who speak a language other than English at home

and speak English less than "very well". This indicator is relevant because an inability to speak English well creates barriers to healthcare access, provider communications, and health literacy/education. Of the 5,148 total population aged 5 and older in the report area, 24 or 0.47% have limited English proficiency.

Report Area	Population Age 5+	Population Age 5+ with Limited English Proficiency	Population Age 5+ with Limited English Proficiency, Percent
Cherry County, NE	5,148	24	0.47%
Rural Nebraska	312,532	9,422	3.01%
Urban Nebraska	1,526,389	85,904	5.63%
Nebraska	1,838,921	95,326	5.18%
United States	313,447,641	26,299,012	8.39%

Note: This indicator is compared to the state average.

Children in Single-Parent Households

This indicator reports the percentage of children who live in households where only one parent is present.

Report Area	Population Age 0-17	Children in Single-Parent Households	Percentage of Children in Single-Parent Households
Cherry County, NE	1,298	265	20.42%
Rural Nebraska	77,597	12,788	16.48%
Urban Nebraska	405,964	84,910	20.92%
Nebraska	483,561	97,698	20.20%
United States	73,466,592	18,244,481	24.83%

Percentage of children that live in a household headed by single parent

Note: This indicator is compared to the state average.
Data Source: US Census Bureau, American Community Survey, 2019-23.

Single Parent Households with Children (Age 0-17), Percent by Tract, ACS 2019-23

Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas as of 2020. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban. Of the report areas 5,455 population, 0 or 0.00% of the population is classified urban while 5,455 or 100.00% is rural.

Report Area	Total Population	Urban Population	Rural Population	Urban Population, Percent	Rural Population, Percent
Cherry County, NE	5,455	0	5,455	0.00%	100.00%
Rural Nebraska	333,185	79,444	253,741	23.84%	76.16%
Urban Nebraska	1,628,319	1,352,559	275,760	83.06%	16.94%
Nebraska	1,961,504	1,432,003	529,501	73.01%	26.99%
United States	331,449,281	265,149,027	66,300,254	80.00%	20.00%

Data Source: US Census Bureau, Decennial Census, 2020.

Population Living in Rural Areas, Percent by Tract, US Census Bureau 2020

Rural Population, Total by Age Group

This indicator reports the total rural population of the report area by age group.

Report Area	Population Under Age 18	Population Age 18-64	Population Age 65+
Cherry County, NE	1,159	2,982	1,251
Rural Nebraska	55,996	135,809	59,578
Urban Nebraska	65,657	153,571	53,300
Nebraska	121,653	289,380	112,878
United States	13,901,034	38,682,984	13,426,319

Data Source: US Census Bureau, [Decennial Census](#). 2020.

Rural Population, Percent by Age Group

This indicator reports the total rural population of the report area by age group. The percentage values could be interpreted as, for example, "Of all the population under age 18 within the report area, the proportion of rural population is (value)."

Report Area	Population Under Age 18	Population Age 18-64	Population Age 65+
Cherry County, NE	100.00%	100.00%	100.00%
Rural Nebraska	74.31%	74.87%	80.42%
Urban Nebraska	16.53%	15.78%	21.56%

Additional Measures - Community Conditions - Social and Economic Factors

Education - High School Graduation

The adjusted cohort graduation rate (ACGR) is a graduation metric that follows a “cohort” of first-time 9th graders in a particular school year, and adjusts this number by adding any students who transfer into the cohort after 9th grade and subtracting any students who transfer out, emigrate to another country, or pass away. The ACGR is the percentage of the students in this cohort who graduate within four years. In the report area, the adjusted cohort graduation rate was 91.3% during the most recently reported school year. Students in the report area performed better than the state, which had an ACGR of 86.3%.

Report Area	Adjusted Student Cohort	Number of Diplomas Issued	Cohort Graduation Rate
Cherry County, NE	69	63	91.3%
Rural Nebraska	4,121	3,680	89.3%
Urban Nebraska	20,097	17,229	85.7%
Nebraska	24,218	20,909	86.3%
United States	3,479,541	3,067,953	88.2%

Note: This indicator is compared to the state average.

High School Graduation Rate by Student Race and Hispanic Ethnicity

The table and chart below display county, state, and national variation in cohort graduation rates by student race and Hispanic ethnicity.

Note: Data are suppressed for some school districts for population groups when the "universe" population falls below a certain threshold. County, state, and national summaries are aggregates of district level data and may not represent all students when suppression has occurred.

Report Area	Non-Hispanic White	Non-Hispanic Black%	Hispanic or Latino
Cherry County, NE	91.1%	No data	No data
Rural Nebraska	89.4%	No data	84.7%
Urban Nebraska	91.2%	75.6	74.4%
Nebraska	90.8%	75.6	75.4%
United States	91.0%	83.6	84.5%

Data Source: US Department of Education, [ED Data Express](#). Additional data analysis by [CARES](#), 2022-23.

Education - Reading Scores

This indicator reports the average grade level performance in the county for 3rd graders on English Language Arts standardized tests. The score values could be interpreted as, for example, a score of 3.5 indicates that the 3rd graders are performing half a grade level better than expected for 3rd graders. In the report area, the 3rd graders are performing an average of 3.44 grade level on reading, which is greater than the state average of 3.11.

Report Area	3rd Graders, Total	3rd Graders, Average Grade Level Performance on Reading
Cherry County, NE	56	3.44
Rural Nebraska	3,712	2.94
Urban Nebraska	19,271	3.11
Nebraska	22,983	3.11
United States	3,072,830	3.05

Note: This indicator is compared to the state average.

3rd Graders' Average Grade Level Performance on Reading

Education - Math Scores

This indicator reports the average grade level performance in the county for 3rd graders on math standardized tests. The score values could be interpreted as, for example, a score of 3.5 indicates that the 3rd graders are performing half a grade level better than expected for 3rd graders. In the report area, the 3rd graders are performing an average of 3.44 grade level on math, which is greater than the state average of 3.11.

Report Area	3rd Graders, Total	3rd Graders, Average Grade Level Performance on Math
Cherry County, NE	56	3.44
Rural Nebraska	3,709	2.94
Urban Nebraska	19,263	3.11
Nebraska	22,972	3.11
United States	2,942,011	3.05

Note: This indicator is compared to the state average.
Data Source: The Educational Opportunity Project at Stanford University, [Stanford Education Data Archive](#). 2019.

Education - School Segregation Index

This indicator reports the extent to which students within different race and Hispanic ethnicity groups are unevenly distributed across schools when compared with the racial and ethnic composition of the local population. The index ranges from 0 to 1 with lower values representing a school composition that approximates race and Hispanic ethnicity distributions in the student populations within the county, and higher values representing more segregation. Data are acquired from the 2023-2024 National Center for Education Statistics (NCES) data and are used in the 2025 County Health Rankings.

Within the report area, the school segregation index is 0.04, which is lower than the state average of 0.26.

Report Area	Population Age 5-17	School Segregation Index
Cherry County, NE	940	0.04
Rural Nebraska	57,510	0.11
Urban Nebraska	295,613	0.16
Nebraska	353,123	0.26
United States	54,208,780	0.24

Note: This indicator is compared to the state average.

Education - School Funding Adequacy

This indicator reports the average gap in dollars between actual and required spending per pupil among public school districts. Required spending is an estimate of dollars needed to achieve U.S. average test scores in each district. Data are acquired from the 2022 School Finance Indicators Database and are used in the 2025 County Health Rankings.

Within the report area, the average per-pupil spending is \$19,785 while the required spending is \$13,269, thus resulting in a gap of \$6,516 that is greater than the state average of \$873.

Report Area	Actual Spending Per Pupil	Required Spending Per Pupil	Gap between Actual and Required Spending
Cherry County, NE	\$19,785	\$13,269	\$6,516
Rural Nebraska	\$17,430	\$13,690	\$3,741
Urban Nebraska	\$13,526	\$10,878	\$2,648
Nebraska	\$13,730	\$12,857	\$873
United States	\$15,395	\$14,637	\$758

Income, Employment and Wealth - Children Eligible for Free/Reduced Price Lunch

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130 percent (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 768 total public school students in the report area, 364 were eligible for the free or reduced price lunch program in the latest report year. This represents 47.4% of public school students, which is higher than the state average of 39.6%.

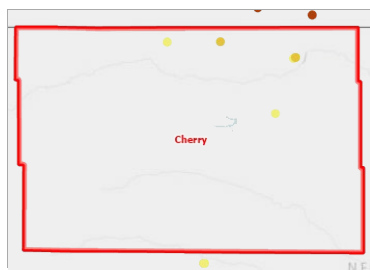

Note: States with more than 80% records "not reported" are suppressed for all geographic areas, including hospital service area, census tract, zip code, school district, county, state, etc.

Report Area	Total Students	Students Eligible for Free or Reduced Price Lunch	Students Eligible for Free or Reduced Price Lunch, Percent
Cherry County, NE	768	364	47.4%
Rural Nebraska	53,020	23,672	44.6%

Children Eligible for Free or Reduced Price Lunch by Eligibility

The table below displays the number and percentage of students eligible for free or reduced price lunch by income eligibility category. Percentages in the table below are out of the total student population.

Note: States with more than 80% records labeled as "not reported" are suppressed for all geographic areas.

Report Area	Free Lunch, Total	Free Lunch, Percent	Reduced Lunch, Total	Reduced Lunch, Percent
Cherry County, NE	275	35.2%	106	13.6%
Rural Nebraska	18,156	31.0%	5,510	9.4%
Urban Nebraska	59,206	21.9%	15,501	5.7%
Nebraska	77,362	23.5%	21,011	6.4%
United States	21,117,358	42.8%	2,275,791	4.6%

Data Source: National Center for Education Statistics, [NCES - Common Core of Data](#). 2023-24.

The chart below displays the percentage of the students in each eligibility category out of the total number of students eligible for free or reduced price lunch. Of all the 381 students eligible for free or reduced price lunch, 72.2% are eligible for free lunch and 27.8% are eligible for reduced lunch.

Income, Employment and Wealth - Gender Pay Gap

This indicator reports the ratio of women's median earnings to men's median earnings for all full-time, year-round workers, presented as "cents on the dollar." Data are acquired from the 2019-2023 American Community Survey and are used in the 2025 County Health Rankings.

Within the report area, on average women were paid \$0.80 for every dollar in male median earnings, which is less than the state average of \$0.80.

Report Area	Ratio of Female vs. Male Median Earnings
Cherry County, NE	0.80
Rural Nebraska	0.75
Urban Nebraska	0.80
Nebraska	0.80
United States	0.82

Safety and Social Support - Residential Segregation - Black/White

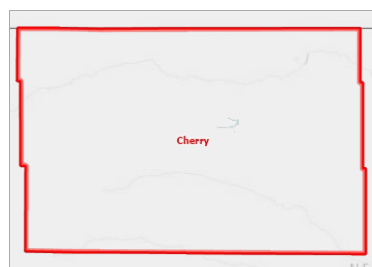

This indicator reports the index of dissimilarity where higher values indicate greater residential segregation between Black and white county residents. Data were based on 2019-2023 American Community Survey data and were reported as additional measures in the 2025 County Health Rankings.

The residential segregation index ranges from 0 (complete integration) to 100 (complete segregation). The index score can be interpreted as the percentage of either Black or white residents that would have to move to different geographic areas in order to produce a distribution that matches that of the larger area.

Report Area	White Population	Black Population	Residential Segregation Index
Cherry County, NE	4,679	53	No data

Safety and Social Support - Firearm Fatalities

The firearm death rate is the number of deaths due to firearms per 100,000 population. Data were originally from the 2018-2022 National Center for Health Statistics (NCHS) and were reported in the 2025 County Health Rankings. *Note: Data are suppressed for counties with fewer than 10 firearm deaths in the time period.*

Report Area	Total Population (5-year Avg.)	Firearm Deaths, Total (5-year Total)	Firearm Deaths, Rate per 100,000 Population
Cherry County, NE	-1,999	No data	No data
Rural Nebraska	51,497	57	22.1
Urban Nebraska	1,521,660	773	10.2
Nebraska	1,946,568	1,029	10.6
United States	330,014,476	221,682	13.4

Note: This indicator is compared to the state average.
